

Number of Activities organized by student organizations related to sustainability

2023-2024 & 2024-2025

Pharm D Program – Clinical Pharmacy at Menoufia National University Organizes the First Student Conference “Back to Nature” – July 17, 2024

The Pharm D – Clinical Pharmacy Program at Menoufia National University (MNU) organized its first student conference titled “Back to Nature”, under the patronage of Dr. Ahmed Al-Qassed, President of Menoufia University and Acting President of MNU, and Dr. Nancy Asaad, Academic Supervisor of the University. The event was held under the supervision of Dr. Ashraf Belba, Dean of the Medical and Life Sciences Sector, and Dr. Amr Kamal Bas, Program Coordinator and Conference Chair. The conference was organized by Dr. Dalia Hamdan, Dr. Eman Khalaf, Dr. Mohamed El-Refaey, and Dr. Hossam El-Saadawy.

Dr. Nancy Asaad inaugurated the scientific exhibition, which included models and posters introducing various medicinal plants, their active compounds, identification methods, and therapeutic uses. Students also delivered scientific presentations, which were highly praised for their quality, creativity, and research depth, reflecting the strong academic development and collaborative spirit among students.

The conference featured poetry, artistic performances, and open discussions about pharmaceutical career opportunities and training in herbal monographs. It concluded with recommendations to conduct herbal studies on local medicinal and aromatic plants to support pharmaceutical production and sustainable agriculture, aligning with Egypt’s Vision 2030.

During the closing ceremony, shields of appreciation were presented to university leaders and organizers in recognition of their outstanding support and efforts.

The Program of Medicine and Surgery at Menoufia National University (MNU) organizes the first scientific day.
13 April 2024

Under the patronage of **Dr. Ahmed Al-Kassed**, President of Menoufia University and Acting President of Menoufia National University (MNU), and **Dr. Nancy Asaad**, Vice President for Academic Affairs, and under the supervision of **Dr. Ashraf Balbaa**, Dean of the Medical Sector, and **Dr. Ahmed Hamdan**, Coordinator of the Medicine and Surgery Program, the program organized its **first scientific day** titled **“Blood and Lymph Secrets.”** The event was held in collaboration with the **Department of Microbiology and Medical Immunology** at the Faculty of Medicine, Menoufia University, which contributed to the organization and supervision of activities.

Dr. Nancy Asaad inaugurated the event, commending the students for their academic excellence, ethics, and creativity in organizing the day’s activities. She emphasized the significance of holding scientific events in medical colleges to strengthen students’ understanding of modern medical sciences, encourage intellectual exchange, and promote interactive learning with faculty experts.

The scientific day featured a rich variety of activities, including a **scientific exhibition** displaying student-prepared posters, **handicrafts**, and **workshops** focused on **blood typing** and **infection control**, all of which received wide appreciation from attendees. Students also presented **scientific talks and videos** under departmental supervision, showcasing their research and practical understanding. A highlight of the event was a student-written and directed play titled **“Atef and the Vaccines,”** performed by the **Mediator team**, illustrating creative approaches to medical education. The program also included a **poetry performance** and a **guitar recital**, reflecting the university’s commitment to nurturing students’ artistic talents alongside academic skills.

Menoufia National University Participates in the Second Scientific Forum: “Foresight for the Future and Green Egypt” 2 August 2024

A student team from **Menoufia National University** participated in the **Second Scientific Forum** held at **Menoufia University** under the theme “*Foresight for the Future and Green Egypt.*” The event was organized under the patronage of **Prof. Dr. Ahmed El-Kased**, President of Menoufia University and Acting President of Menoufia National University, and the supervision of **Prof. Dr. Nancy Asaad**, Academic Supervisor of Menoufia National University.

The forum, organized by the **General Administration of Youth Welfare**, comes within the framework of the **National Initiative for Smart Green Projects**, which aims to achieve the **Sustainable Development Goals** and align with **Egypt’s Vision 2030**.

The participating team from the **Faculty of Applied Health Sciences Technology** was supervised by **Dr. Hiam Ayad**, Program Coordinator, and **Dr. Hala Said**, Deputy Coordinator. The team included **student Ramadan Ashraf** and **student Sondos Maher**, who presented an innovation titled “*A Device for Treating Blood Clots Using Thermal Radiation.*” **Student Basant Mohamed** also participated with a project on “*Stem Cell Therapy for Parkinson’s Disease.*”

The judging committee included **Dr. Essam Gomaa** (Faculty of Electronic Engineering), **Dr. Gaber Asr** (Faculty of Engineering), and **Dr. Alaa Radwan** (Faculty of Commerce). The team was accompanied by **Dr. Yasser Neda** and representatives from the **Student Affairs Department** led by **Amal El-Sawy**.

Students of Applied Health Sciences Technology at Menoufia National University Attend the Conference on Advanced Technology and Artificial Intelligence Applications in Diagnostic and Therapeutic Radiology at Badr University
25 July 2024

Under the patronage of **Prof. Dr. Ahmed El-Qased**, President of Menoufia University and Acting President of Menoufia National University, and **Prof. Dr. Nancy Asaad**, Academic Supervisor of the University, and **Prof. Dr. Ashraf Belba**, Dean of the Medical Sector, a group of students from the **Faculty of Applied Health Sciences Technology** participated in the **Second Scientific Conference of Badr University in Cairo** under the title *“Advanced Technology and Artificial Intelligence Applications in Diagnostic and Therapeutic Radiology.”* The participation was supervised by **Dr. Hayam Ayad**, Program Coordinator of the Faculty.

The event, held under the auspices of **Prof. Dr. Ashraf El-Sheehy**, President of Badr University in Cairo, provided a valuable opportunity for students to engage with the latest scientific research and practical advancements in the field of radiological technology and AI-driven medical imaging.

This participation reflects the university’s commitment to encouraging its students to take part in national and regional scientific activities, enhancing their practical knowledge and professional readiness. The conference also contributed to broadening students’ understanding of how artificial intelligence can revolutionize diagnostic and therapeutic radiology, aligning with the university’s vision to prepare graduates capable of meeting the evolving demands of the healthcare sector locally and globally.

Participation of the Faculty of Applied Health Sciences in the Second Student Forum at Menoufia University: “Foresight for the Future and Green Egypt” – March 2023

Under the patronage of Prof. Dr. Ahmed El-Kased, President of Menoufia University and Acting President of Menoufia National University, and the supervision of Prof. Dr. Nancy Asaad, Academic Supervisor of Menoufia National University, the university celebrated the achievements of its students who participated in the Second Scientific Forum at Menoufia University held under the theme *“Foresight for the Future and Green Egypt.”*

Student Basant Mohamed, from the Faculty of Applied Health Sciences Technology, was honored for winning second place for her outstanding project on *“Stem Cell Therapy for Parkinson’s Disease.”* The project reflects innovative approaches aligned with Egypt’s Vision 2030 and the National Initiative for Smart Green Projects, which aim to achieve sustainable development goals.

The honoring ceremony was attended by Dr. Hiam Ayad, Program Coordinator of Applied Health Sciences Technology, and Dr. Hala Said, Deputy Coordinator.

Student Ramadan Ashraf was also honored for his distinguished participation in the field of Innovation and Entrepreneurship with his project *“A Device for Treating Blood Clots Using Thermal Radiation.”*

Prof. Dr. Nancy Asaad praised the students’ achievements, emphasizing that participation in such scientific forums is not only about winning awards but also about developing students’ research and innovation skills, enhancing creativity, and encouraging the exchange of scientific experiences among young researchers.

“First Step” Program – Time Management Session April 18, 2025

Pharmaschemes Live had the honor of participating in the “First Step” (Awal Selma) program by delivering an engaging session at Menoufia National University.

Pharmaschemes extends its sincere appreciation and gratitude to Prof. Ahmed Farag El-Kased, President of Menoufia University and Acting President of Menoufia National University, and Prof. Nancy Youssef Asaad, Vice President for Academic Affairs, for their continuous support and encouragement.

The First Step program was organized under the supervision of Dr. Hend El-Sayed Abu Mansour, Coordinator of the Clinical Pharmacy Program and Advisor of Pharma Spark Family, and Dr. Amr Kamal, Director of the Clinical Pharmacy Program. Special thanks were also extended to the Pharma Spark Family for their fruitful cooperation and contribution to the success of the event. Representing Pharmaschemes, Dr. Marium M. Ismail, Public Relations Head at Pharmaschemes, delivered an inspiring session entitled “Time Management”, focusing on strategies to enhance productivity, set priorities, and achieve academic and personal balance.

The session was highly interactive and well-received by students, aligning with the university’s mission to develop essential life and professional skills among its learners.

Students of the Faculty of Physical Therapy at Menoufia National University Present an Innovative Device to Measure Joint Range of Motion and Muscle Contraction Strength at Their First Scientific Conference – July 14, 2024

Under the patronage of **Dr. Ahmed Al-Kassed**, President of Menoufia University and Acting President of **Menoufia National University (MNU)**, and the supervision of **Dr. Nancy Asaad**, Academic Supervisor of the University, the Faculty of Physical Therapy organized its **first student scientific conference** titled *"Kinesiology is the Keystone of Physical Therapy."*

The event was attended by **Dr. Ashraf Belba**, Dean of the Medical Sector, **Dr. Youssef Al-Ba'lawi**, Program Coordinator and Conference President, and **Dr. Aliaa Al-Abd**, Conference Rapporteur. The conference featured a scientific exhibition showcasing research projects, including an **innovative student-designed device** that measures **joint range of motion and muscle contraction strength** using sensory cells placed on the external surface of joints.

In her opening speech, Dr. Nancy Asaad conveyed greetings and appreciation from Dr. Al-Qassed, affirming the university's full support for student-led scientific activities. She praised the high level of competence, creativity, and practical skills demonstrated by physical therapy students, emphasizing the university's focus on **applied learning over rote memorization**.

Dr. Belba commended the students for their excellent performance, thoughtful research, and teamwork, noting that such conferences enhance collaboration, communication, and innovation among students.

Sports Day at Menoufia National University (MNU) 15 May 2025

The MND Family, in collaboration with the Sports Committee of the Student Union at the Faculty of Medicine, Menoufia National University, organized a special sports day under the patronage of Dr. Ahmed El-Kassad, President of Menoufia University and Acting President of Menoufia National University, and Dr. Nancy Asaad, Vice President for Academic Affairs. The event was supervised by Dr. Ahmed Hamdan, Program Director.

The organizing team included students Mahmoud El-Saadany, President of the Student Union; Mohamed Mamdouh, Vice President; Youssef Shehata, Head of the MND Family; Haneen Radi, Secretary of the Sports Committee; and Karim Raafat, Assistant Secretary of the Sports Committee, with support from the University's Student Affairs Department.

The day featured several sports activities such as table tennis, chess, and arm wrestling. Competition results were as follows: **Table Tennis:** Ahmed Lasheen (boys), Aya Ahmed (girls), **Chess:** Yousry Ayman (boys), Amani Hussein (girls), **Arm Wrestling:** Mohamed Assiwi (boys), Noha Haitham (girls).

Dr. Ahmed Hamdan honored and awarded the winners at the end of the event.

The Faculty of Pharmacy at Menoufia National University (MNU) organizes health awareness campaigns to serve the community 30 April 2025

The Faculty of Pharmacy at Al-Menoufia National University organized two health awareness campaigns at Toukh Secondary School and Al-Ittihad Preparatory School. These campaigns were part of the college's initiative to spread awareness about parasitic diseases and prevention methods, under the patronage of Dr. Ahmed El-Qassed and Dr. Nancy Asaad, supervised by Dr. Ashraf Belba and Dr. Amr Kamal, Director of

the Clinical Pharmacy Program. Participants included microbiology and immunology faculty members Dr. Amal Issa Saafan, Dr. Samar El-Refaai, Dr. Moaz El-Saadawi, and Dr. Mohamed Salah.

Second-year pharmacy students led the campaigns, delivering simplified lectures and interactive activities about dangerous parasites and prevention through personal and food hygiene. The activities were well-received by students and teachers. Additionally, the Faculty of Pharmacy held awareness sessions for university students and staff across all academic programs to promote health culture and social responsibility, affirming the university's role in community service and preparing students to be ambassadors of awareness and prevention for local community.

The Faculty of Dentistry in Menoufia organizes an awareness convoy to serve the community and promote oral and dental health 24 April 2025

- The Faculty of Dentistry at Menoufia National University (MNU) organizes an awareness convoy to serve the community and promote oral and dental health.

- Under the patronage of Dr. Ahmed Al-Kassed President of Menoufia University and Acting President of Menoufia National University (MNU), and Dr. Nancy Asaad, Vice-President for Academic Affairs, and under the supervision of Dr. Ashraf Balbaa, Dean of the Medical Sector, Dr. Asmaa Khater, Director of the Oral Medicine and Dental Surgery Program, and Dr. Bassam Shaaban, Program Coordinator, the Faculty of Dentistry organized an awareness convoy to the Official Language School in the village of Toukh Tanbesha. Dr. Mahmoud Saeed, a lecturer at the faculty, participated in the convoy's activities, along with the university's Student Care Department, the Faculty's Student Union, and a number of students.
- Dr. Asmaa Khater highlighted that dental awareness convoys are essential for promoting public health and community service, emphasizing that student participation is a key part of their medical training. Through real-life practice, students develop social awareness, confidence, and communication skills necessary to address diverse patient needs effectively. Dr. Mahmoud Saeed noted that free diagnostic examinations for oral and dental diseases were conducted for the school's students, awareness sessions were held on the importance of daily dental care, and oral hygiene supplies (brushes, toothpaste, and floss) were distributed to the students.

Director of the Physiotherapy Program at Menoufia National University and 80 Students Participate in the “Physiotherapy Towards Sustainable Health” Conference at Benha

University: Student Jana Abdel Sabour Honored for Her Scientific Research February 22, 2025

Under the patronage of Dr. Ahmed Al-Qassed, President of Menoufia University and Acting President of Menoufia National University (MNU), and Dr. Nancy Asaad, Vice President for Academic Affairs, Dr. Youssef Al-Baalawy, Director of the Physiotherapy Program, led a delegation of 80 students from the Faculty of Physiotherapy to participate in the scientific conference “**Physiotherapy Towards Sustainable Health**” held at Benha University on **February 22, 2025**. The event was inaugurated by Dr. Nasser El-Gizawy, President of Benha University, and Dr. Tamer Samir, President of Benha National University, in the presence of several vice presidents, deans, professors, and specialists in the field of physiotherapy.

Dr. Al-Baalawy explained that the conference featured over **50 lectures and research papers** by professors and experts, more than **30 student research presentations**, specialized workshops by leading experts, and an exhibition of medical devices and pharmaceutical companies. He chaired one of the scientific sessions and delivered a lecture titled “*Reaching Kinematics Improvement After Using Modified Constraint-Induced Movement Therapy in Hemiparetic Patients,*” emphasizing best practices in improving motor function among stroke patients and the importance of student participation in scientific events to enhance their knowledge and skills.

During the conference, **student Jana Abdel Sabour**, a second-year student at MNU, presented a significant research paper on **the applications of artificial intelligence in physiotherapy**. She was honored by the conference president for her outstanding contribution and innovative research topic.

Faculty of Nursing at Menoufia National University Organizes Scientific Day “Empowered Against Diabetes... Awareness is Our Strength” March 18, 2025

Under the patronage of Dr. Ahmed El-Kased, President of Menoufia University and Acting President of Menoufia National University, and Dr. Nancy Asaad, Vice President for Academic Affairs, the Faculty of Nursing organized a scientific day titled “*Empowered Against Diabetes... Awareness is Our Strength.*” The event was honored by the presence of Dr. Nasser Abdelbary, Vice President for Education and Student Affairs, who actively participated in the activities, along with Dr. Ashraf Belba, Dean of the Medical Sector, Dr. Ibrahim Hashem, Dean of the Engineering Sector, and Mr. Mohamed Saeed, Secretary-General of the University.

Supervised by Dr. Manal Farid, Program Director of Nursing Sciences, and coordinators Dr. Omima Okbi and Dr. Entesar Kamel, the event aimed to raise awareness about diabetes prevention and management through education and healthy lifestyle practices. Sessions covered types, causes, symptoms, and complications of diabetes, the importance of early detection, proper nutrition, and physical activity.

The day featured interactive presentations, a theatrical performance on managing diabetic emergencies, and a patient interview. A scientific exhibition displayed informative posters, awareness brochures, blood sugar testing, and healthy meal samples. Outstanding students were honored, and attendees praised the students’ creativity, awareness, and commitment to community health promotion.

On World Cancer Day February 4, 2025
CARE Family Organizes a Visit to Baheya Hospital to Support Cancer Warriors and a Trip to the Cairo International Book Fair

Under the patronage of Dr. Ahmed Al-Qassed, President of Menoufia University and Acting President of Menoufia National University, and Dr. Nancy Asaad, Vice President for Academic Affairs, the CARE Family organized a visit to Baheya Hospital in solidarity with *World Cancer Day* (February 4). The event was supervised by Dr. Hala Said, Family Advisor, with coordination by the Student Care Department.

The visit aimed to raise awareness about cancer prevention, emphasize early detection, and support patients and survivors. Led by student Youssef El-Gaaar, Family Coordinator, and Engy Ashraf, Head of the Cultural Committee, students met Baheya staff and patients, learning about the hospital's role as a non-profit organization providing medical and psychological care to women with cancer across the Middle East and North Africa. The activity reflected the university's commitment to fostering empathy, volunteerism, and social responsibility among students.

The group also toured Baheya's departments, attended awareness workshops, and participated in discussions on patient support. Later, students visited the Cairo International Book Fair, exploring local and international publishers, attending cultural seminars, and engaging in book signing events combining humanitarian engagement with intellectual enrichment.

Charity Clothing Fair – March 28, 2025

In an atmosphere filled with kindness and blessings, the CARE Family at Menoufia National University concluded its Ramadan activities with a charity clothing fair, held under the patronage of Prof. Dr. Ahmed Farag El-Kased, President of Menoufia National University, Prof. Dr. Nancy Youssef Asaad, Vice President for Academic Affairs, and Dr. Hala Said, CARE Family Advisor, and supervised by Mr. Mohamed Saeed, University Secretary General, along with the Student Welfare Department at the university.

Throughout the holy month, our goal was to bring smiles to people's faces — because Ramadan is not only about fasting and worship, but also about kindness, giving, and standing by one another.

From hospital visits and distributing Ramadan packages, to support campaigns, we ended the month with a fair aimed at helping everyone find what they need in the simplest, most heartfelt way. We wanted to conclude Ramadan with something that spreads joy and leaves a lasting, beautiful memory.

8th UN Global Road Safety Week – May 13, 2025

Students of the Smart Cities Planning and Construction Program at the Faculty of Engineering, Menoufia National University, participated in an on-campus awareness campaign under the patronage of Prof. Dr. Ahmed Farag El-Kased, Acting President, and Prof. Dr. Nancy Youssef Asaad, Vice President for Academic Affairs, supervised by Dr. Ibrahim Hashem, Dean of the Engineering Sector.

The campaign coincided with the 8th United Nations Global Road Safety Week, focusing this year on safe walking and cycling. Its goal was to raise awareness among students about traffic rules, pedestrian safety, and the role of urban planning and infrastructure in reducing accidents. Walking and cycling safely not only improve road safety but also promote public health, prevent non-communicable diseases, enhance mental well-being, and contribute to sustainable urban transport systems by reducing pollution and congestion.

The Smart Cities Program prepares engineers to design and manage sustainable, smart urban environments, covering urban planning, civil engineering, AI, communication networks, and renewable energy. Students applied their knowledge practically through the course “Intelligent Transportation Systems (ITS)”, taught by Dr. Yara Basony, which focuses on using technology to improve traffic flow, reduce accidents, and optimize road and vehicle management.

This campaign highlights the university’s commitment to educating future engineers on safety, sustainability, and community well-being, linking education to real-world impact in line with global road safety initiatives.

Outstanding Participation of Menoufia National University Students in the 13th Arab Youth and Coastal Environment Forum – Hurghada, August 23, 2025

Students from **Menoufia National University (MNU)** participated in the **13th Arab Youth and Coastal Environment Forum** in Hurghada under the patronage of **Prof. Dr. Ahmed Al-Kassed**, Acting President, and **Prof. Dr. Nancy Asaad**, Vice President for Academic Affairs, supervised by **Mohamed Saeed**, Secretary General, and organized by **Amal El-Sawy**, Director of Student Care. The delegation included Amr Anas (Medicine), Ibrahim Shalaby (Physical Therapy), Malak El-Farmawy (Dentistry), and Iman Shaheen (Pharmacy).

The forum, organized by the **Arab Union for Youth and Environment** in cooperation with the Ministry of Youth and Sports and the Arab League, brought together participants from 15 Arab and African countries. This year's theme, **“Our beaches are our live and plastic is their danger,”** focused on combating plastic pollution and preserving coastal and marine ecosystems. The forum honored Dr. Mustafa Fouda for his contributions to environmental protection.

MNU's participation reflects the university's commitment to integrating **environmental awareness into education**, preparing students to contribute to sustainable development, and fostering innovative solutions for community challenges. Students engaged in workshops, discussion sessions, and field activities on climate change, resource preservation, marine protection, and youth-led environmental initiatives.

The forum highlighted the critical role of youth in promoting environmental awareness, reducing plastic pollution, and safeguarding biodiversity. It emphasized collaboration among governments, civil society, and the private sector, with practical measures such as banning single-use plastics and raising community awareness.

Key recommendations included launching youth awareness campaigns, enhancing Arab-African cooperation on sustainable coastal management, supporting innovative youth projects, providing specialized training on climate adaptation, establishing digital networks for environmental collaboration, and promoting mangrove cultivation to mitigate climate change.

MNU students expressed their enthusiasm for exchanging experiences, learning about innovative environmental practices, and contributing to practical solutions. The forum concluded by honoring contributors and reinforcing the message that **environmental conservation is a vital part of Arab identity and culture**, with plans to replicate the forum in other countries.
