

Health infrastructure facilities for students, academics and administrative staffs' wellbeing

1. Menoufia National University Clinic

2. Menoufia National University Pharmacy

Description:

The clinic at Menoufia National University is fully equipped to provide comprehensive medical services for students, faculty, and staff. It includes multiple specialized examination rooms furnished with modern medical equipment, a well-stocked pharmacy containing all essential medicines and supplies, and dedicated areas for first aid and emergency care.

The university clinic operates under the national health insurance system, ensuring that all members of the university community have access to affordable healthcare services. In addition, the clinic collaborates closely with the Egyptian Pharmaceutical Company to maintain a consistent supply of high-quality medicines.

For advanced medical consultations and specialized treatments, the university clinic maintains partnerships with the National Liver Institute in Menoufia Governorate and Menoufia University Hospitals, ensuring comprehensive and integrated healthcare support for the university community.

The university clinic offers specialized medical services in various fields, including internal medicine, dermatology, orthopedics, otolaryngology (ENT), and mental health. These services are provided by qualified physicians and healthcare professionals to ensure high-quality medical care for all members of the university community.
