

Rehabilitation and Physiotherapy Equipment

1. Advanced Facilities for Recovery and Care:

Menoufia National University is equipped with state-of-the-art **rehabilitation and physiotherapy equipment** designed to support patient recovery, enhance mobility, and improve overall quality of life through specialized therapies such as **electrotherapy, hydrotherapy, and mechanical rehabilitation systems**.

2. Educational and Training Value:

These facilities provide **hands-on training opportunities** for students in the Faculty of Physical Therapy, allowing them to apply theoretical knowledge in a practical environment. This strengthens professional competence and promotes **quality health education**.

3. Community and Sustainability Impact:

The rehabilitation center contributes to **inclusive healthcare** by serving patients with physical disabilities and promoting preventive health practices, reflecting the university's commitment to accessible, sustainable, and community-oriented healthcare services.
