	Menoufia Health Directorate (Ministry of Health and Population)	National	Partnership for coordinating public health programs, vaccination campaigns, and student medical check-ups.	Strengthened community health engagement and preventive healthcare initiatives.

### Description

In 2023, **Menoufia National University** established several collaborations with local and national health institutions to enhance student health, clinical training, and community well-being. These partnerships include agreements with **Menoufia University Hospitals**, **Tanta University Hospitals**, the **National Liver Institute**, the **Egyptian Red Crescent (Menoufia Branch)**, and the **Menoufia Health Directorate**.

Through these collaborations, the university provides medical care, health awareness programs, volunteer training, and opportunities for students to gain practical experience in real healthcare settings, supporting **SDG 3 – Good Health and Well-being**.

Collaboration with Menoufia University Hospitals

**25 Feb 2024**

A cooperation protocol was signed between Menoufia National University and Menoufia University to provide healthcare and clinical training services. Through this agreement, students of Menoufia National University receive medical services and clinical training in the university hospitals, including the Main University Hospital, Liver Institute Hospital, and Student Hospital. The partnership supports health checkups, laboratory investigations, surgeries, and training in various medical specialties.

Partnership with the Egyptian Red Crescent Society – Menoufia Branch

**17 July 2024**

The university hosted the Egyptian Red Crescent team for an awareness and orientation day focused on humanitarian work and first aid training.

The event encouraged students to engage in volunteer health initiatives and to contribute to national humanitarian campaigns supporting public health and emergency response.
