

## Activities and Initiatives to Achieve Clean Water and Sanitation

### Workshop on Water Conservation during the First Environmental Week at Menoufia National University July 13, 2024

Menoufia National University organized a workshop on water conservation as part of the events and activities of the First Environmental Week held under the patronage of **Prof. Dr. Ahmed El-Kased**, President of Menoufia University and Acting President of Menoufia National University, and **Prof. Dr. Nancy Asaad**, Academic Supervisor of Menoufia National University.

The workshop was delivered by **Prof. Dr. El-Sayed Mostafa Galila**, Professor of Internal and Infectious Diseases and Vice Dean of the Faculty of Veterinary Medicine for Education and Students' Affairs, Menoufia University.

He discussed the definition of freshwater, its sources, and its importance in maintaining environmental balance, as well as the vital role of water for both humans and animals. The session also addressed **water pollution as a major source of disease transmission** and outlined **methods of prevention**, emphasizing the **importance of water conservation** and the **policies and strategies for rational water use** by both governments and individuals. In addition, the workshop highlighted ways to **protect water from environmental pollution**, whether industrial or bacterial, to ensure access to **clean and healthy water**.

The Environmental Week was organized under the supervision of **Dr. Amr Kamal**, Coordinator of the Faculty of Pharmacy. The workshop was coordinated by **Mr. Mohamed Said El-Gazir**, Secretary-General of Menoufia National University, and **Dr. Atef Abdel-Galil**, Coordinator of the Faculty of Veterinary Medicine, with the participation of a large number of faculty members, staff, and students.
