

Education outreach activities beyond campus

On the occasion of Eid al-Adha, students from Menoufia National University visited an orphanage to extend holiday greetings to the children. **16 June 2024**

Under the supervision of Dr. Ahmed El-Kased, President of Menoufia University and Acting Head of Menoufia National University, and Dr. Nancy Asaad, Academic Supervisor of the university, a group of students visited the orphanage to celebrate Eid al-Adha with the children and spend the day with them, bringing joy to their hearts during this special occasion and wishing them a blessed and happy Eid.

This voluntary visit reflects the students' strong belief in the importance of community service and their commitment to offering all possible forms of support to meet the needs of various social groups in a voluntary spirit, rooted in their conviction about the significance of solidarity and cooperation among everyone. A number of students from the Faculty of Veterinary Medicine and the Faculty of Applied Health Sciences participated in the visit, where they conducted an interactive session on the importance of healthy nutrition and personal hygiene for the children at the orphanage, alongside practical workshops on handwashing and having simple healthy meals.

During the visit, the students spent the entire day with the children, presented them with gifts and Eid allowances, and provided various recreational activities to bring happiness and joy to the children on this festive occasion.

The visit was organized under the supervision of the Student Affairs Department at Menoufia National University.

The image consists of two parts. On the left is a purple rectangular poster titled "الطريقة الصحيحة لغسل اليدين" (The correct way to wash hands) in Arabic. The poster features a logo for "لنا وكمال المجتمع معاً نجاحنا" (For us and our society, our success) and "ISO 9001:2015". It shows a 3x4 grid of 12 numbered circles, each illustrating a step in the handwashing process: 1. Wetting hands, 2. Applying soap, 3. Lathering between fingers, 4. Scrubbing thumbs, 5. Scrubbing back of hands, 6. Scrubbing fingers, 7. Scrubbing wrists, 8. Rinsing hands, 9. Drying hands, 10. Using a paper towel, 11. Closing the tap, and 12. Disinfecting hands. Below the grid, the text reads: "يجب غسل اليدين لمدة 30 ثانية وسطياً بالماء والصابون أو بالمواد المعقمة التي تحتوي على كحول بنسبة 70%" (It is recommended to wash your hands for 30 seconds with water and soap, or with an antiseptic containing 70% alcohol). On the right is a photograph of a young boy with a painted face, smiling broadly. He is wearing a light-colored t-shirt with the word "FREE" printed on it. He is holding a small object in his right hand. In the background, another child is visible, and the setting appears to be an indoor room.
