

Public resources (lifelong learning)

- 1- The Egyptian Knowledge Bank (EKB) is accessible via the university's official website, allowing open access without the need for internal credentials. Therefore, it serves as a public educational resource that promotes lifelong learning and continuous development among students, faculty members, and the broader community.

The screenshot shows the Menoufia National University website. At the top, there is a navigation bar with links for Home, University, Faculties, Electronic platforms, Sustainability, English (US), and a search bar. Below the navigation bar, there is a section titled "archive" which contains a link to "Videos". Further down, there is a section titled "Our partners" which lists several organizations: Menoufia University, Supreme Council of Universities, Microsoft Office, Egyptian Knowledge Bank (EKB), Moodle, and Menoufia University Hospitals. At the bottom of the page, there is a footer with copyright information: "All rights reserved © 2022 Information Technology Unit - Menoufia National University", language options ("English (US)", "الإنجليزية"), and a Windows activation message: "Activate Windows Go to Settings to activate W".

- 2- As part of Menoufia National University's commitment to community engagement and lifelong learning, the university regularly opens its campus to school students to enhance public access to educational resources and inspire early interest in higher education.

Students from El-Shaheed Mohamed Saeed Abdelkawy Primary School Visit Menoufia National University 6 March 2023

Menoufia National University received a delegation from *El-Shaheed Mohamed Saeed Abdelkawy Primary School*, consisting of **21 students and 3 supervisors**, to visit one of the major national projects in Menoufia Governorate.

The visit aimed to raise students' awareness of the country's development achievements and the role of national institutions in community advancement under the leadership of His Excellency President Abdel Fattah El-Sisi.

During the visit, the students toured several university buildings and learned about the university's various academic programs. They were introduced to the importance of establishing national universities derived from public universities, and how these institutions expand and diversify educational programs to meet labor market needs, moving beyond traditional disciplines. The visit also highlighted the role of national universities in offering modern, internationally partnered, and interdisciplinary programs aligned with global educational developments.
